PROFESSIONAL SUMMARY

Product Designer with 1+ year of experience designing end-to-end UX for AI-powered platforms, design systems, and conversational interfaces. Skilled in Figma, prototyping, wireframing, and developer handoff. Experienced working cross-functionally with engineering and product teams in fast-paced startup environments.

WORK EXPERIENCE

Product Designer Aug 2025 – Present
Spectatr.ai, Gurugram

- Built a scalable Figma design system with variable-based theming, enabling consistent multi-sport UI experiences and reducing design-to-development handoff time — improving overall team efficiency by 25%.
- Designed end-to-end UX for an AI-powered video intelligence platform using computer vision, facial recognition, and NLP; enabled creators to auto-analyze, transcribe, and search video libraries without manual review.
- Redesigned internal operations tools to streamline clip validation workflows, reducing turnaround time and improving cross-functional collaboration between design, product, and engineering.
- Designed conversational UX for an AI sports assistant; simulated user prompts and refined response behavior through LLM-based testing and iterative prototyping in Figma.

Product Design Consultant Feb 2025 – Jul 2025
Spectatr.ai, Gurugram

- Led end-to-end UX design for Jordy, an AI-powered conversational sports platform delivering real-time insights, fantasy updates, and interactive content across cricket, football, and basketball.
- Contributed to the Media Library — a centralized hub for AI-generated sports clips — supporting 9:16 formatting, multi-language content, and metadata management.

Interior Designer Sep 2022 – May 2024
Pantone Collective, Delhi

- Executed retail, hospitality, and residential projects end-to-end; led client meetings and coordinated across design and branding teams.
- Work featured in Vogue India and Condé Nast Traveller for design excellence in hospitality projects.

Interior Design Intern May 2022 – Aug 2022
Studio Autumn, Bengaluru

- Assisted in 3D renders and technical drawings for residential projects; supported design concept planning with on-site insights.

EDUCATION

Bachelor of Design in Interior Design 2018 – 2022
Arch College of Design and Business

SKILLS

Tools: Figma, FigJam, Framer, Paper (AI-native design), Claude Code, SketchUp
Design: UX/UI Design, Design Systems, Wireframing, Prototyping, Visual Design, Information Architecture
Process: User Research, Usability Testing, Developer Handoff, Cross-functional Collaboration
AI Workflows: LLM Interface Design, Conversational UX, AI-assisted Design (Paper MCP, Claude Code)
Collaboration: Notion, Slack

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Native)
