

RISHEETA SINGH

Product Designer — AI Interfaces & Design Systems

Gurugram, India | +91-7898440034 | risheetas.design@gmail.com | risheetasingh.vercel.app

PROFESSIONAL SUMMARY

Product Designer specializing in end-to-end UX for AI-powered platforms, conversational interfaces, and scalable design systems. Proven track record of leading whole-product transformations, simplifying complex data workflows, and designing human-in-the-loop interactions that build trust in automated AI systems. Comfortable moving fast in cross-functional environments alongside engineering, product, and leadership.

WORK EXPERIENCE

Product Designer — Spectatr.ai

August 2025 – July 2026

- **Led end-to-end UX for AI-first enterprise platforms**, consolidating 3–5 disparate tools into a single, unified workspace to drastically reduce context switching and task completion time.
- **Designed human-in-the-loop review interfaces for non-deterministic AI tagging**, establishing high user trust in automated system outputs and driving seamless product adoption.
- **Overhauled information architecture for complex, 50TB+ databases**, replacing rigid folder structures with natural language search to streamline data retrieval at scale.
- **Architected a variable token system in Figma** that reduced developer handoff time by 30%, unifying UI across core modules and enabling rapid white-labeling for multiple enterprise clients.
- **Designed consumer-grade, mobile-optimized conversational UX** for AI assistants, refining response behavior and micro-interactions (such as dynamic loading states and expandable widget cards) to drive engagement and habit formation.

Product Design Consultant — Spectatr.ai

Feb 2025 – Jul 2025

- **Streamlined complex decision-making workflows** by replacing raw data outputs with structured AI widget cards and contextual follow-up chips, consolidating multi-tab research into a single conversational interface.
- **Contributed to centralized media management hubs**, designing event-anchored timelines and inline distribution models that collapsed multi-step publishing loops into single-action workflows.

Interior Designer — Pantone Collective

Sep 2022 – May 2024

- Executed retail, hospitality, and residential projects end-to-end; led client meetings and coordinated across design and branding teams.
- Work featured in *Vogue India* and *Condé Nast Traveller* for design excellence in hospitality projects.

Interior Design Intern — Studio Autumn

May 2022 – Aug 2022

- Assisted in 3D renders and technical drawings for residential projects; supported design concept planning with on-site insights.

EDUCATION

Bachelor of Design in Interior Design — Arch College of Design and Business

2018 – 2022

SKILLS

- Design & Architecture:** UX/UI Design, Information Architecture, Interaction Design, Design Systems, Wireframing, Prototyping, Mobile-First Design, Micro-Interactions
- AI & Advanced Workflows:** Non-Deterministic AI Interfaces, Conversational UX, Human-in-the-Loop Review Flows, LLM-Based Testing, AI-Assisted Design (Paper MCP, Claude Code)
- Tools & Methods:** Figma, Figma Variables, ProtoPie, Framer, FigJam, SketchUp, Usability Testing, Cross-Functional Collaboration
- Collaboration & Languages:** Notion, Slack, English (Fluent), Hindi (Native)
